CAREER OBJECTIVES

Aspiring and creative Web Developer with a strong foundation in both front-end and back-end technologies, along with a growing specialization in Artificial Intelligence and Machine Learning. Proficient in HTML, CSS, JavaScript, jQuery, Python, Java, and PHP, with hands-on experience in developing intelligent solutions using Machine Learning, Data Analytics, Natural Language Processing (NLP), and predictive modeling. Passionate about building user-centered digital experiences while integrating AI-driven innovation to solve real-world problems. I bring a keen eye for design, supported by expertise in graphic design using Adobe Photoshop, Adobe Illustrator, and Canva, along with a background in visual artistry, particularly human portrait pencil sketching. Strong in problem-solving, analytical thinking, and communication, I aim to combine creativity with technical excellence to contribute meaningfully to dynamic development teams in Web Development, AI, and Machine Learning domains.

EDUCATION

Master of Computer Applications (MCA) Bharathiar University

| 2024–2026 | CGPA: 8.09

Bachelor of Science in Computer Science University of Calicut |

2021–2024 | CGPA: 6.208

Higher Secondary Education (Science Stream)

KPRP HSS, Kongad, Kerala State Board | 2019–2021 | Percentage: 86%

PROJECT

Real-time Video Analysis of Object Recognition

Utilized AI and Machine Learning for live object detection using OpenCV and custom models.

YouTube Mining and Sentiment Analysis

Extracted and analyzed video comments and metadata to determine public sentiment using Python and Natural Language Processing (NLP) tools.

Cine-Insight: Unveiling Netflix Movie Trends & Audience Sentiments

Used Python to analyze Netflix data, track movie trends, and find audience sentiment using reviews and simple visualizations. genres and patterns.

Code-Architect AI: Enterprise Documentation for Repository Analysis and AI-Driven Insights

An AI-driven engineering platform that transforms complex code repositories into interactive 3D visualizations and predictive risk audits to eliminate technical debt and accelerate architectural oversight.

LexGuard AI – Intelligent Legal Advisor & Justice Support System

An intelligent legal assistance platform that uses AI, NLP, and machine learning to simplify law search, FIR drafting, IPC-BNS comparison, bail prediction, and legal document analysis.

TECHNICAL SKILLS

Programming & Web Technologies: HTML, CSS, JavaScript, jQuery, PHP, Python, Java

Tools & Standards: Adobe Photoshop, Adobe Illustrator, Git (Basic), SQL (Basic), W3C Standards

AI/ML Skills: Machine Learning, Deep Learning, NLP, Data Analytics, Predictive Modeling, OpenCV, Sentiment Analysis

SOFT SKILLS

Communication, Analytical Thinking, Problem-Solving, Decision Making, Multitasking, Presentation Skills

CREATIVE SKILLS

Graphic Design, Pencil Sketching (Specialized in Human Portraits), Strong Observation Skills

ACHIEVEMENTS & CERTIFICATIONS

Internships

- Web Development Internship – 15 Days | KINFRA Ottapalam.
- Python with Artificial Intelligence Internship – 45 Days | MECHPRO TECHNOLOGIES Coimbatore.

Certifications

- Cyber Security Analyst Add-On Course | Red Team.
- Machine Learning & Deep Learning Course | MathWork Services.
- Data Analytics Add-On Course | STAIR Progressive Minds Pvt. Ltd.
- Flutter development Value Added Course | ATS Accent Techno Soft.

Achievements

- Appreciation Certificate awarded by NETWORK BULLSTUDY Pvt Ltd
 - Presented a research paper titled “**CinePulse: Tracking Trends, Genres, and Emotions in Global and Indian Netflix Cinema**” at the International Conference on **Insights and Innovations in Emerging Technologies (ICHET25)**, organized by the Department of Computer Science, Dr. R.V. Arts and Science College, on 07 October 2025
-

DECLARATION

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief. I take full responsibility for the accuracy of the details mentioned in this resume.
